General note on Action Points (APs): These will normally be agreed in principal by the Inspector and the NPA, and any other participant as required, at the end of the relevant hearing session. Where possible the AP will specify an agreed timeframe for completion. If it is not possible to determine the timeframe at the time of discussion, the NPA will liaise with the Inspector over this via the Programme Officer. The Planning Inspector will send the suggested form of wording for the APs to the NPA via the Programme Officer as soon as practicable after the end of a hearing session. Once the NPA is satisfied that the contents are accurate, they will be published to the Examination website as soon as possible in the interests of transparency. The NPA will work on the schedule of Matters Arising Changes (MACs) in parallel with the APs and their AP responses, ensuring that MACs are accurately recorded at the earliest possible stage. The Inspector will confirm when she expects to be sent an up to date MAC Schedule; this will normally be in advance of the final hearing session.
