The aim of SDF is to reduce local carbon emissions in our environment and to respond to the climate emergency.

Applicants can apply for projects to deliver the following:

- a. Install renewable energy generation facilities to a community building i.e. solar panels
- b. An initiative to promote reduction in carbon emissions in transport i.e. installing an electric charging point for bikes or cars or by supporting access to non-individual travel
- c. Install a community facility that minimises waste, i.e. water fountain
- d. Any other community-based carbon reduction initiative.
