2022/23 ANNUAL GOVERNANCE STATEMENT

Introduction and acknowledgement of Responsibility

The Pembrokeshire Coast National Park Authority (“the Authority”) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for and used economically, efficiently, and effectively. The Authority is a public body as defined under the Wellbeing of Future Generations Act legislative requirement since 1st April 2016. The Authority is required under the Act to set and publish well-being objectives, take all reasonable steps to meet those objectives and act in accordance with the sustainable development principle when setting well-being objectives and taking steps to meet them.

The Authority has an approved Code of Corporate Governance, which is consistent with the principles of the Chartered Institute of Public Finance and Accounting (CIPFA)/Society of Local Authority Chief Executives and Senior Managers (UK) (SOLACE) Framework ‘Delivering Good Governance in Local Government: Guidance for Welsh Authorities 2016’. This guidance recommends that the review of effectiveness of the system of internal control that local authorities are required to undertake in accordance with the Accounting and Audit Regulations should be reported in an Annual Governance Statement. In Wales the inclusion of the Annual Governance Statement in the Statement of Accounts is voluntary. CIPFA also published an “Application Note to Delivering Good Governance in Local Government: A Framework”. This note has been developed to advise on the application of the “Statement of the Role of the Chief Financial Officer on Local Government” under the CIPFA/SOLACE Framework “Delivering Good Governance in Local Government”. In preparation of the Annual Governance Statement the Authority reviews and adopts any additional guidance as issued, this includes CIPFA’s Financial Management Code (2019) and the Financial Management Standards in the code. The Authority has decided to adopt the CIPFA framework and Annual Governance Statement approach.

We propose over the coming year to take steps to address the matters identified in this statement to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

The purpose of the Governance framework

The governance framework comprises the committees, systems and processes, cultures and values, by which the Authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. Although mitigations steps are in place it cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks associated with the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The Governance framework

This review is informed by the work of the Authority's Members and its Committees, internal and external auditors, other review agencies (as appropriate) and senior managers who have responsibility for the development and maintenance of the internal control environment. The normal process of review has been impacted by the delay in the production of the Annual Improvement Report from the Audit Wales.

The review is based on the Authority's Code of Corporate Governance which is based on the seven principles of the CIPFA Code of Corporate Governance.

Principle 1: Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law

A Code of Conduct for Members and a Code of Conduct for Officers is in place. Issues relating to breaking the Code of Conduct are dealt with by the following:

The Standards Committee

It is the responsibility of the Authority's Standards Committee to promote high standards of conduct by Members and officers. It does this by advising on and promoting awareness and understanding of the code of conduct for Members and the code of conduct for officers, both of which have been adopted by the Authority. During the year the Independent Members of the Committee increased from three to four and no cases were brought to the Committee.

Monitoring Officer

The statutory Monitoring Officer functions are set out in Section 5 of the Local Government and Housing Act 1989 (as amended) i.e., in short, to report to the Authority if the Monitoring Officer considers that any proposal, decision, or omission by the Authority may give rise to unlawfulness or maladministration. The Monitoring Officer provides an annual code of conduct training session and advice when required to Members.

Member Support and Development

Members of the Authority are encouraged to undertake annual personal development reviews (PDR), which gives them an opportunity to reflect upon their role(s) within the Authority and to highlight any areas where they might need further support or development. A training plan is compiled from the results of the PDR, and the resulting development programme is rolled out to Members during the course of their term of office. A code of conduct workshop is also delivered annually to Members, this year's being delivered by an external consultant. The Authority meets the standards for the Advanced Charter for Member Support and Development. The Authority has delivered a comprehensive induction training programme for new Members, to which all existing Members were invited as a refresher.

Staff Members

Issues relating to the conduct of staff are normally considered in accordance with the Authority's Disciplinary procedures. All Authority staff have Work and Well-being Reviews. This process allows an opportunity for managers and staff to review past performance,

highlight potential areas of concern and agree future objectives to ensure they are linked to service plan/corporate targets.

Whistle Blowing Policy

In the Public Interest Disclosure Act 1998 the Government has given statutory protection to employees who ‘blow the whistle’ by speaking out against corruption and malpractice at work. It protects them against victimisation and dismissal. In its commitment to the highest standards of openness, probity and accountability, the policy states “The Authority encourages employees and others with serious concerns about the Authority’s work to come forward and raise their concerns with the Authority”.

Anti-Fraud and Bribery Policy

The Authority has in place approved an Anti-Fraud and Bribery Policy. The policy covers all employees, volunteers and members of the Authority. It incorporates the changes to the bribery legislation that have been included in the Bribery Act 2010. The Bribery Act 2010 establishes criminal offences and individuals found guilty can face an unlimited fine and imprisonment up to ten years. Where an organisation itself is found guilty of the offence then the penalty is an unlimited fine.

Safeguarding Policy

The Authority has in place a safeguarding policy and staff participate in required training. The policy takes account of changes to legislation (Social Services and Well-being (Wales) Act 2014) and in the way these changes have been interpreted and delivered at a local level in West Wales. The policy includes guidance and provides updates regarding processes and procedures. The policy aims to ensure that sound working practices are in place that put safeguarding as a priority and which are effective in managing risk for these vulnerable groups, but which will also protect staff and volunteers against wrongful or malicious allegations.

Financial Standards

The Authority regularly reviews and updates its Financial Standards and Contract Standing Orders, the purpose of which is to provide a financial and procurement framework within which the Authority can operate. These will assist the Authority in ensuring that:

- Legislation is complied with.
- The assets of the Authority are safeguarded.
- The funds available are spent wisely and efficiently.
- Appropriate income generation is undertaken.
- Best value is achieved.

Public Services Ombudsman for Wales

The Public Services Ombudsman for Wales has jurisdiction over the Authority’s functions by virtue of the Public Services Ombudsman (Wales) Act 2005. They have not made any investigation into the Authority either in relation to any alleged breaches of the Members’ Code of Conduct adopted by the Authority on 25 June 2008, or in relation to a complaint made against the Authority.

Principle 2. Ensuring openness and comprehensive stakeholder engagement.

During the past year the Authority has sought to engage with local people and stakeholders through a range of consultations.

The Authority proposes to continue to undertake consultation with residents, visitors, organisations and other stakeholders on a long term strategy on service delivery on the reducing funding anticipated over the next few years.

Standard 145 requires the Authority to produce a 5-year strategy that sets out how we propose to promote the Welsh language more widely in the National Park. The strategy must also include a target (in terms of the percentage of speakers in the National Park) for increasing or maintaining the number of Welsh speakers in the National Park by the end of the 5 year

The Authority submitted reports on what it has done to comply with the Section 6 Duty to Welsh Government in 2022 in line with the Authority's Signposting Document.
