1083	30/07/25	12	SPG's - To ensure that suitable wording is featured with regards to reuse of materials and minimising waste (replacements dwellings).	EG	Before consultation	Officers have looked at the Replacement Dwelling's SPG and there is a section on waste, the re-use of materials and energy consumption under question 3 'Is the demolition of the existing dwelling justified?'. There is reference to policy 31 Minimising Waste and guidance on the energy hierarchy from Planning Policy Wales where the principal aim is to reduce energy demand. Officers consider there is sufficient guidance at present but happy to meet and discuss with Dr Havard to add additional information in this section if required.
